

# Codonics CDs and DVDs

Build brand awareness for your business while providing referring physicians with a digital record of their patients' studies

*“We really like the customized label on the CD. I also like the fact that I can publicize all of my sites.”*

**Lawrence N. Tanenbaum, M.D., FACR, Edison Imaging Section Chief MRI, CT and Neuroradiology New Jersey Neuroscience Institute**

Codonics CD and DVD

- Automated disc labeling using Codonics Virtua™ Medical Disc Publisher increases productivity and ensures accuracy of patient information
- Codonics offers an exclusive design service that creates a full color corporate disc design to market your practice
- Choose from a variety of industry standard and custom OEM viewers

# Codonics CD and DVD Media

Codonics CD and DVD media meet the demands of today's medical imaging storage requirements. Featuring disc-to-disc consistency, 100-year data archival, and a tough recording surface that guards against dirt, moisture, scratches and fingerprints, our disc media offers industry-leading quality.

Codonics CDs and DVDs record and print at impressive speeds. Large CT and MRI studies are easily stored on a single Codonics 4.7 GB DVD with an outstanding 18X recording time, while smaller studies are ideal for Codonics 700MB CDs with a rapid recording speed of 40X. Codonics offers low-cost standard print or premium print surfaces for stunning color labels using ink that's virtually dry the instant the disc is finished.

The Codonics Virtua™ Medical Disc Publisher is designed to record hundreds of CDs and/or DVDs a day and automatically generates HIPPA and IHE PDI compliant discs. To keep pace with the workflow, our disc publisher offloads recording from the modality and PACS workstations so that patients can be processed without any interruption.

Codonics exclusive full color disc label design service makes black and white or hand-written discs pale by comparison. Let us help you create the look that will give you a marketing edge, making you stand out from your competition.

Codonics Virtua™ features a world-class interface with an intuitive touch screen that allows novices to become experts in minutes.
